ACS Certification for the Chemistry Major

Effective beginning 2016-2017

For students wishing to receive an ACS-certified BS degree in Chemistry, all the requirements of the major must be satisfied, with the following provisos:

1. The Physics 110/120 sequence (or equivalent AP credit) is required;
2. The Chemistry 120/122 sequence (or equivalent AP credit) is required;
3. Four credits of 400-level Chemistry is required (no substitutions allowed); and
4. A minimum Chemistry GPA of 3.0 must be achieved.

Students wishing to receive ACS certification should send a brief letter of request, along with a WebAdvisor transcript, to the Chemistry Department Chair by 15 February in their senior year.
