Creek Connections Before/After Project Evaluation

Teachers participating in Creek Connections’ school-year program should have students complete this evaluation before the program begins and again at the end of the school year. Students - We are interested in your thoughts, feelings, and experience with science. Please answer these questions as honestly as you can. There are no right or wrong answers - we only want to know what YOU think and feel about science. This is completely voluntary, but we truly value your input!

* Required

1. School *

2. Grade you are in *

3. Class you are taking that participates in Creek Connections *
   Such as: biology, general science, environmental science, etc.

4. Student Code given to you by your teacher
   Enter the year if you were not given a code

5. Are you completing this BEFORE or AFTER having participated in Creek Connections for the school year? *
   Mark only one oval.
   - BEFORE
   - AFTER

Creek Connections School-Year Program

6. Name three specific activities that you will do (or did) with Creek Connections. *

   ........................................................................................................
   ........................................................................................................
   ........................................................................................................
   ........................................................................................................
   ........................................................................................................

.................................................................
7. How will your experience with Creek Connections be different or similar to activities in your previous science class? (or How WAS your experience different or similar to previous science activities?) *

...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................

8. List three things you expect to learn (or learned) from Creek Connections. *

...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................

9. List three values or benefits of streams and waterways. *

...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................

10. List three ways watershed awareness is important. *

...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................
...........................................................................................................................................................................

Please select the answer that represents how YOU feel about science.

11. After a really interesting science activity is over, I see how it relates to things around me. *

Mark only one oval.

☐ YES!
☐ yes
☐ no
☐ NO!
12. I think I could be a scientist some day. *
   Mark only one oval.
   ○ YES!
   ○ yes
   ○ no
   ○ NO!

13. I think science is useful for making the world a better place to live. *
   Mark only one oval.
   ○ YES!
   ○ yes
   ○ no
   ○ NO!

14. I want to participate in more science programs in the future. *
   Mark only one oval.
   ○ YES!
   ○ yes
   ○ no
   ○ NO!

In your Creek Connections Program:

15. The activities will be (or were)... *
   Mark only one oval.
   ○ very easy
   ○ easy
   ○ hard
   ○ very hard

16. I will learn (or learned) a lot from participating in Creek Connections this year. *
   Mark only one oval.
   ○ YES!
   ○ yes
   ○ no
   ○ NO!
17. Participating in Creek Connections this year will change (or changed) my outlook on the importance of science/environment/watershed. *

Mark only one oval.

☐ YES!
☐ yes
☐ no
☐ NO!
