Allegheny College prohibits sexual misconduct. Under our college policies and procedure, I am considered a “Responsible Employee”. That means that I am someone who is trained to recognize issues of sexual misconduct and will pass on to the school’s Title IX Coordinator any instances that I see, hear about, or have reason to believe occurred. This includes things that you may share with me.

This procedure is in place to ensure that Allegheny College provides a safe environment for everyone in our community and to provide assistance, support, resources and interim measures to anyone who has been subjected to inappropriate behaviors.

I am a resource for you but I want you to know that if you tell me something that happened to you or someone else, I can keep the information private but can’t promise confidentiality because of my duty to inform the Title IX Coordinator.

If you would like to talk with someone who is able to keep the information you share confidential, these are the people you can contact:
