Panels For the Geoscience Career Event Fall 2012
( Co-sponsored by Allegheny College Geology Dept. and Office of Career Services)

Monday October 22 from 4:30-6:00, Tillotson Room in the Tippie Alumni Center. The panelists will rotate around the room every 10-15 minutes to meet with small groups of students followed by open networking time.

**Stephanie Amodeo, 2011**
Major: Geology, Minor: Dance and Movement Studies
Employer: Arcadis
Title: Geologist 1
Brief background: Summer internship with the Utah Geological Survey in 2010. Currently a field geologist doing groundwater and soil sampling, air monitoring, and oversight of drillers and other contractors. Office work includes writing reports, constructing groundwater contour maps and geologic cross sections, and quality assurance/quality control.

**Megan Hepner, 2009**
Major: Env Science, Minor: Psychology
Employer: O’Brien & Gere Engineers, Philadelphia area
Title: Scientist
Brief background: Began career with O'Brien & Gere as a summer intern for the Eco-Sciences Division. She was then hired to work in the Hydrogeological Division where she supports a variety of projects throughout the investigation, remedial, and monitoring phases.

**Stephanie Gundling (Wolf), 2009**
Major: Biology, Minor: Chemistry & Psychology
Employer: Risk-Based Remedies (RBR Consulting, Inc.)
Title: Staff Scientist
Brief background: M.S. in Biology from James Madison University in 2011. RBR Consulting Inc. is a small environmental consulting firm specializing in human health and ecological risk assessments.

**Katie Heckman (Pankowski), 2007**
Major: Geology, Minor: History
Employer: EQT Production, Pittsburgh
Title: Geologist II
Brief background: Reservoir Technology team. Propose, collect, and analyze data that will help EQT to optimize future development of our unconventional and conventional oil and natural gas assets. Main focus has been natural gas in Kentucky-West Virginia-Virginia and helping with Marcellus shale wells. Currently pursuing an MBA at the Joseph M Katz School of Business, University of Pittsburgh.

**Nick Fischietto, 2007**
Major: Geology, Minor: History
Employer: Chevron
Title: Development Geologist (Appalachian/Michigan Business Unit)
Brief background: M.S. Geoscience from Purdue University in 2009. Currently working on Marcellus Shale development in Southwestern PA. Previous Professional experience – 2 years with Chesapeake Energy as an Associate Geologist in Oklahoma City working the deep Anadarko Basin.

**Erin Garber, 2004**
Major: Geology, Minor: Music Performance
Employer: Herbert, Rowland & Grubic, Inc., Harrisburg, PA
Title: Environmental Scientist
Brief background: Master of Engineering (Environmental Engineering, Penn State University, 2011). Work experience is 50% geology/50% engineering and includes brownfields (groundwater modeling, soil remediation from PCBs and petroleum products), environmental compliance, spill prevention and control plans, water management plans (including water resources for hydrofracturing), stormwater control and permitting for municipalities and the private sector, Chesapeake Bay pollutant reduction plans, and phase I environmental site assessments.
