1. The default status for courses is Unpublished. You must publish your course so that students in your roster can access it.

2. To publish your course, click on the Site Info link in the course site's Left Tool Menu and then choose Manage Access from the top of the Site Info page.

3. Click in the Publish site box on the Change Access for ... page and then click the Update button.

Please note:
If you plan to use your course site only for Library E-reserves, the Library will publish your site for you.
