Allegheny College Greek Scholarship Report Spring 2016 **June 9, 2016**

Dear Fraternity/Sorority Presidents and Scholarship Chairs:

Congratulations on completing another successful semester at Allegheny College. Here are a few scholarship highlights for the Spring 2016 semester:

- The all-Greek GPA (3.15) is higher than the all-College GPA (3.08).
- 141 members achieved a 3.5 or higher GPA for the Spring semester. This represents 31% of the Greek community.
- 13 members achieved a 4.00 GPA for the Spring semester.
- Kappa Alpha Theta had the highest GPA among all chapters (3.41).
- Phi Gamma Delta had the highest fraternity GPA (3.25).
- 8 chapters acquired a 3.0 or higher GPA. These chapters include Kappa Alpha Theta, Phi Gamma Delta, Delta Delta Delta, Delta Tau Delta, Alpha Chi Omega, Kappa Kappa Gamma, Alpha Delta Pi, and Theta Chi.

While the all-Greek GPA is higher than the all-College GPA, chapters should assess their current scholarship programs and make necessary adjustments to achieve a high degree of academic performance. In particular, chapters should set a chapter GPA goal that is higher than the all-College GPA for the Fall 2016 semester.

In this report, we included data tables to compare chapter GPAs with the "unaffiliated" students GPA. This should indicate whether a positive or negative correlation exists among the GPAs of members vs. non-members. If your chapter's GPA is higher than unaffiliated students, a positive correlation between membership in your organization and GPA exists. If your chapter's GPA is lower than unaffiliated students, a negative correlation between membership in your organization and GPA exists. If you find that your chapter GPA is lower, we encourage you to make scholarship a priority during the spring semester. We ask that you utilize campus resources such as the Learning Commons or our office when working with members to meet individual and/or chapter scholarship goals.

Overall, we are pleased with the scholarship achievements of our fraternity/sorority community this semester. While 31 percent of this community achieved a 3.5 or higher GPA, there is a portion who struggled with their academic responsibilities. We hope that chapters will identify these members and support them in a variety of healthy ways. As usual, we hope to see all of our chapters above a 3.0 GPA and believe this goal is attainable in the upcoming semester.

Enclosed you will find current and historical data that shows average GPAs for our chapters, the fraternity/sorority community and the college community. If you have any questions or comments regarding fraternity/sorority scholarship please do not hesitate to contact us.

Sincerely,

Gretchen Beck
Interim Associate Dean of Students

Jayne Piskorik
Interim Associate Director of Student Involvement

	Theta Chi	2.79	2.74	2.64	3.05	2.66	2.61	2.55	2.57	2.48	3.01

Note Chapter grade point averages are based on the rosters that are compiled throughout each semester. Changes in membership (transfers, inactivity, alumni status) that occur during the semester must be reported to Office of Student Involvement so that the College database can be updated to include current members in the scholarship report. Students who withdraw from school after the completion of the semester are still considered chapter members because they were registered at the college during that semester. Students studying abroad for the semester are NOT included in the scholarship report since they were not participating in fraternity/sorority activities. To avoid confusion, no changes are made to the rosters unless there is written documentation. **Students that have not signed a scholastic record release cannot have their individual grades released to their chapter.**
