

Station 1: Animal Tracks

Instructions:

1. Look at the green poster with the unidentified animal tracks. Try to identify the 5 different species on the poster without looking at the answer sheet. You can use the field guides to help you. The species are all native to Pennsylvania and our local area.

List your answers below:

A. _____

B. _____

C. _____

D. _____

E. _____

Look at the answer sheet and compare your answers with it.

2. What characteristics about each animal can you infer based on the shapes and sizes of their track? Think about what you know of the animal already and try to relate this to the physical qualities of the track. (You may also consult the field guides for assistance on this)

A.

B.

C.

D.

E.
