INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Allegheny College
Meadville, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of Allegheny College (College), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United Statements of America.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements is as follows:

Organization - Allegheny College (the "College") is a four-year coeducational college fully accredited by the Middle States Association of Colleges and Secondary Schools. The College generates its operating revenues generally from student tuition, fees and gifts. The College's students are primarily from the states of Pennsylvania, New York, and Ohio. The College is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code.

Basis of Presentation - The College classifies net assets, revenues, expenses, gains, and losses based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the College and changes therein are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations or restricted by law that may or will be met either by actions of the College and/or the passage of time.

Permanently Restricted Net Assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the College. Generally, the donors of these assets permit the College to use the income earned on related investments for general or specific purposes.

Revenue Recognition - Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets are reported as increases or decreases in unrestricted net assets, unless their use is restricted by explicit donor stipulations or by law.

Cash and Cash Equivalents - The College considers all short-term investments with a maturity at the date of acquisition of three months or less and that are not intended for long-term or restricted purposes to be cash equivalents.

Student Receivables - Student receivables represent balances due from students for tuition, fees and other charges and are reported at their net realizable value. Student receivables are considered to be due when invoiced. Provisions are established for estimated uncollectible receivables when considered necessary. The College's estimate is based on historical collection experience, a review of the current status of receivables, and judgment. Decisions to charge-off receivables are based on management's judgment after consideration of facts and circumstances surrounding potential uncollectible accounts. Management has recorded an allowance of $281,000 and $285,000 as of June 30, 2015 and 2014, respectively; however, it is reasonably possible that this estimate of the allowance could change in future periods.

Loans to Students - Loans to students under the Federal Perkins Loans Program are reported at their outstanding principal adjusted for any charge-offs and net of the allowance for loan losses. The availability of funds for loans under the Federal Perkins Loans Program is dependent on reimbursement to the pool from repayments on outstanding loans. The College recognizes interest, delinquency charges and other fees when earned and collectability is reasonably assured. Outstanding loans canceled under the program result in a reduction of the funds available for future loans and a decrease in the liability due to the government. The allowance for loan losses is increased by charges and decreased by charge-offs (net of recoveries). The College's periodic evaluation of the adequacy of the allowance is based on the College's loan loss experience, adverse situations that may affect the borrower's ability to repay, and current economic conditions. Loan balances are written off when they are deemed to be permanently uncollectible.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions - Contributions are recognized when the donor makes a promise to give to the College that is, in substance, unconditional. Noncash contributions are valued at the fair value of the asset contributed at the date of the contribution. Contributions received and unconditional promises to give are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on existence of donor restrictions and nature of restrictions, if they exist.

Contributions restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction is met or expires, temporarily restricted net assets are released to unrestricted net assets.

Pledges expected to be collected within one year are recorded at their net realizable value. Pledges that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are calculated using a risk-free rate of return.

Substantially all of the temporary restrictions on assets as of June 30, 2015 and 2014, relate to amounts given to the College for future capital additions, loans and scholarships to students, or unexpended gains under Pennsylvania Trust Law. Permanently restricted net assets consist of endowment fund investments to be held indefinitely, certain split-interest agreements, and certain trusts held and administered by others.

Agency Transactions - The College receives resources in certain transactions where it is acting as an intermediary for the resource providers. The resources are then delivered to third parties. These transactions are recognized as changes in assets and liabilities and do not affect the statements of activities.

Inventories - Inventories are stated at the lower of cost (first-in, first-out basis) or market and represent books and other merchandise held for resale.

Investments and Investment Income - Investments are reported at fair values. Investments received from donors as gifts are recorded at fair value at the date of gift. Investment return includes interest, dividends, and both realized and unrealized gains and losses.

The College's investments comprise the College's endowment and other investments held for general operating purposes. Level 1 investments are defined as marketable securities, including mutual funds, and are reported at fair values based on quoted active market prices. Level 2 investments, including international equity funds and bond funds, are reported based on observable prices not quoted on active exchanges or readily determinable fair values based on comparable market data.

Level 3 investments, including real estate and other less-marketable investments that have unobservable fair value and liabilities, are recorded at fair value based on appraisals or recent comparable financial activity. Investments with greater than 20% ownership are reported under the equity method of accounting. Level 3 investments include marketable alternatives, real assets and private equities. Marketable alternatives include (i) event-driven strategies, such as merger, arbitrage and distressed security investing, and (ii) value-driven strategies, such as long/short, market neutral, and other types of hedge funds. Private equities are underlying assets that are nonmarketable equity or equity-like securities. Private equities include equity, mezzanine and subordinated debt holdings in venture capital, buyout and recapitalized companies or properties. Real assets are assets whose income streams and/or market values tend to rise with inflation; they include U.S. Treasury inflation-indexed bonds, real estate and natural resources, such as oil and gas, timber and other commodities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 3 investments are carried at net asset value (NAV) as of June 30, 2015 and 2014, as provided by the investment managers. These valuations include assumptions and methods that were reviewed by College management. The College believes that the carrying amount of its Level 3 investments is a reasonable estimate of NAV as of June 30, 2015 and 2014. When readily determinable NAV does not exist (such as investments not listed on national exchanges or over-the-counter markets or do not have comparable market data), and although College management makes every reasonable effort to ensure the accuracy of fair value, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market existed, and such differences could be material. Most of the College's Level 3 investments are highly liquid and can be redeemed in 90 days or less.

Pennsylvania Trust Law's "Total Investment Return Policy" - The Board of Trustees, in accordance with Pennsylvania Trust Law's "Total Investment Return Policy," designates only a portion of the College's cumulative investment return for support of current operations. The amount computed under the endowment spending policy and nonendowment investment income is used to support current operations. The spendable return on endowment, as calculated based on the 12-quarter average market value of the endowment, was 4.75% for 2015 and 5.0% for 2014. Additionally, the College's Board of Trustees may specifically authorize an amount for fundraising spending, which is also classified as current operating, up to a maximum of 7% in total. The total spendable return on endowment was 4.6% and 5.4% for 2015 and 2014, respectively. The remaining endowment income (loss) is recorded as nonoperating investment return not designated for current operations.

Annuities - Annuities represent the College's obligation to pay a donor an annual amount, based on the donor's original contribution, over the remaining life of the donor. These annuities are stated at the net present value of the projected future cash flows assuming discount rates ranging from 6% to 8% in 2015 and 2014.

Land, Buildings, and Equipment - Land, buildings, and equipment are stated at cost at date of acquisition (in the case of gifts, fair value at date of donation), less accumulated depreciation. Interest expense is capitalized on qualifying assets during the period necessary to ready the asset for its intended use. Interest capitalized is net of interest earnings, if any, from proceeds of tax-exempt borrowings for the respective projects. Depreciation is provided over the estimated useful life of each class of depreciable assets and is computed using the straight-line method. The estimated useful lives of buildings and equipment are summarized as follows:

	Years
Building and improvements	20-50
Equipment and fixtures	3-10
Vehicles	3

The College reviews its land, buildings, and equipment for impairment when events or changes in circumstances may indicate that the carrying amount of these assets might not be recoverable. No impairment charges were recorded by the College in 2015 or 2014. Repairs, maintenance, and minor replacements of existing facilities are charged to expense as incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Split-Interest Agreements and Trusts Held by Others - The College's split-interest agreements with donors consist primarily of irrevocable charitable remainder trusts and gift annuities for which the College serves as trustee. Assets held in these trusts are included in investments. Contribution revenues are recognized at the date the trusts are established after recording liabilities for the present value of the estimated future payments to be made to the donors and/or beneficiaries. The liabilities are adjusted during the terms of the trusts for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

The College is also the beneficiary of certain trusts held and administered by others. The College's portion of the fair market value of the underlying assets of these trusts and the net realized and unrealized gains (losses) of trusts held by others are primarily recorded in permanently restricted net assets. Trusts that permit the principal of the trust to be invaded and distributed to the College are recorded in temporarily restricted net assets. The College considers these trusts held by others to be a Level 2 measurement.

Contributions with Restrictions Met in the Same Year - Contributions received with donor-imposed restrictions that are met in the same year as received are reported as revenues of the temporarily restricted net asset class, and a release to unrestricted net assets is made to reflect the satisfaction or expiration of such restrictions.

Tuition and Fees - Tuition and fees are reported on the statements of activities and changes in net assets are reported net of discretionary discounts. The College generally recognizes revenue in the academic period that tuition is earned and collectability is reasonably assured. All payments received in advance for the subsequent academic period are recorded as deferred revenue. Discretionary tuition discounts are College funds awarded by the College to reduce the net amount of tuition paid by students.

Auxiliary Enterprises - The College's auxiliaries exist primarily to furnish goods and services to students, faculty and staff. Managed as essentially self-supporting activities, the College's auxiliary activities consist primarily of housing services and dining services.

Fund-Raising Expense - The College includes fund-raising expenses in institutional support. These expenses are $4,183,479 and $4,234,715 in 2015 and 2014, respectively. Included in these amounts are approximately $900,049 and $574,617, respectively, which are the allocated portion (joint costs) of fund-raising costs for activities that include program and other components.

Use of Estimates and Assumptions - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The College utilizes various investment instruments that are exposed to risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and accompanying notes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes - The College follows the Financial Accounting Standards Board (FASB) guidance for accounting for uncertainty in income taxes, which provides criteria for the recognition and measurement of uncertain tax positions. This guidance requires that an uncertain tax position should be recognized only if it is "more likely than not" that the position is sustainable based on its technical merits. Recognizable tax positions should then be measured to determine the amount of benefit recognized in the financial statements. The College files U.S. federal, state, and local information returns, and no returns are currently under examination. The statute of limitations on the College's U.S. federal tax returns remains open for the years ended June 30, 2012 through the present. The College continues to evaluate its tax positions pursuant to the principles of FASB guidance and has determined that there is no material impact on the College's financial statements.

Effective July 1, 2014, the College maintains a self-insured medical program under which the cost for such claims is recognized in the year the claims are incurred. Prior to July 1, 2014, the College was fully insured with a third-party insurance provider. Management also records an estimate of incurred but not reported claims. In addition, the College maintains a stop-loss insurance policy, which pays the cost in excess of $150,000 in 2015 for any medical insurance claim, with an annual aggregate maximum of $1,000,000 as of June 30, 2015. Expenses under the medical program were $4,229,000 in 2015, including accrued and unpaid claims, which was approximately $300,000 at June 30, 2015.

Recent Accounting Pronouncements - The FASB issued Accounting Standards Update (ASU) No. 2014-09 Revenue from Contracts with Customers (Topic 606) (ASU 2014-09). ASU 2014-09 is the result of a joint project of FASB and the International Accounting Standards Board to clarify the principles for recognizing revenue and to develop a common revenue standard for use in the U.S. and internationally. ASU 2014-09 supersedes the revenue recognition requirements in Topic 605 of the FASB Codification and most industry-specific guidance throughout the Industry Topics of the Codification. ASU 2014-09 enhances comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets, reduces the number of requirements an entity must consider for recognizing revenue, and requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2018. ASU 2014-09 requires either retrospective application by restating each prior period presented in the financial statements, or retrospective application by recording the cumulative effect on prior reporting periods to beginning retained earnings in the year that the standard becomes effective. The College is assessing the impact that ASU 2014-09 will have on its financial statements.

The FASB issued Accounting Standard Update (ASU) No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share." ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient and removes the requirement to make certain disclosures for these investments. The amendment should be applied retrospectively and is effective for financial statements issued for fiscal years beginning after December 15, 2015. Early adoption is permitted. The College is currently evaluating the impact of the adoption of ASU 2015-07 on its financial statement disclosures.

NOTE 2 - RECEIVABLES

Student accounts receivable as of June 30, 2015 and 2014 consist of the following:

	2015	2014
Accounts and other receivables	$ 1,490,964	$ 1,212,072
Less allowance for doubtful accounts	(281,000)	(285,000)
	$ 1,209,964	$ 927,072

The Board budgets for direct write-offs at the beginning of the year. In order to create the allowance, the College performs a student-by-student review for internal and external collection accounts. Once the analysis is complete, an allowance percentage is placed on each age and type for all internal and external collection accounts.

Contributions receivable are promises to give from various donors that are unconditional. The net present value of the contributions receivable as of June 30, 2015 and 2014 is as follows:

	2015	2014
Amounts due in:		
Less than one year	$ 1,165,412	$ 3,477,949
One to five years	2,416,323	2,662,086
Greater than five years	21,000	30,300
	3,602,735	6,170,335
Discounts and allowances	(301,487)	(683,728)
Net contributions receivable	$ 3,301,248	$ 5,486,607

The College received a $1,000,000 pledge in May 2005 as a challenge grant, which is a conditional contribution. The challenge grant is being recognized as revenue when the matching contributions are made. As of both June 30, 2015 and 2014, $905,000 has been recognized as revenue.

Student Loans Receivable - Net - The College makes loans to students based on financial need. Student loans are funded through Federal government loan programs or institutional resources.

As of June 30, 2015 and 2014, student loans receivable - net consisted of the following:

	2015	2014
Student loans receivable	$ 6,967,040	$ 7,290,858
Less allowance for doubtful accounts	(972,680)	(951,512)
Student loans receivable - net	$ 5,994,360	$ 6,339,346

NOTE 2 - RECEIVABLES (Continued)

Allowances for doubtful accounts are established based on prior collection experience and current economic factors that, in management's judgement, could influence the ability of loan recipients to repay the amounts per the loan terms. Institutional loan balances are written off only when they are deemed to be permanently uncollectible.

NOTE 3 - INVESTMENTS

Investments are carried at fair value of $204,930,651 and $209,605,433 as of June 30, 2015 and 2014, respectively. The aggregate carrying value of investments, exclusive of cash equivalents, as of June 30, 2015 and 2014 are summarized as follows:

NOTE 3 - INVESTMENTS (Continued)

Potential capital calls related to Level 3 investments were approximately $8,964,000 as of June 30, 2015. There were no significant transfers in or out of Levels 1, 2, or 3 for the years ended June 30, 2015 or 2014.

A reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for the years ended June 30, 2015 and 2014 is as follows (in thousands):

	2015					
	V/C and P/E	Debt Funds	Private Real Estate	Hedge Funds	Real Assets	Total

Management fees are included in realized gains (losses) in the table above. The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses related to assets still held at the reporting date.

The total investment pool provides daily liquidity for 68.9% of the holdings. Of Level 3 investments, real assets offer daily liquidity, while debt funds and hedge funds (approximately 16.3% of total investments) offer quarterly liquidity. Venture capital/private equity and private real estate, representing 12.3% of total investments, have liquidity requirements greater than 90 days.

Individual endowment funds within the College’s consolidated endowment pool had fair values less than the individual principal values by approximately $324,000 and $54,000 as of June 30, 2015 and 2014, respectively. This represents .18% of the $183,134,080 fair value of the total 2015 endowment pool and 0.03% of the $184,693,333 fair value of the total 2014 endowment pool, respectively.

As of June 30, 2015 and 2014, there were no significant concentrations of investments since no individual investment exceeded 10% of total assets.

NOTE 3 - INVESTMENTS (Continued)

The College uses prices and inputs that are current as of the measurement date obtained through multiple third-party custodians from independent pricing services.

A description of the valuation techniques applied to the major categories of investments measured at fair value is outlined below. The fair value of common, preferred, and foreign stocks are valued using quoted market prices in active markets. Such actively traded securities are categorized in Level 1 of the fair value hierarchy.

Mutual funds are open-ended Securities and Exchange Commission registered funds with daily net asset values (NAV). The mutual funds allow investors to sell their interest to the fund at a published daily NAV, with no restrictions on redemptions. These mutual funds are categorized in Level 1 of the fair value hierarchy.

Government securities, government agency securities, corporate fixed-income securities, and asset-backed mortgage securities including residential mortgage-backed securities, commercial mortgage-backed securities, and other securitized assets are categorized in Level 2 of the fair value hierarchy since the fair value is based on multiple sources of information, which may include market data and/or quoted market prices from either markets that are not active or for the same or similar assets in active markets.

Limited liability partnerships are partnerships created and administered by a general partner who invests either directly in a specified investment strategy or indirectly through other limited liability partnerships in a so-called “fund of funds.” The underlying investments of these funds can be actively traded securities in the case of certain hedge fund strategies or illiquid and privately held equity investment, as in the case of private equity investments, private real estate, hedge fund strategies, or real assets. The partnership documents outline the terms and conditions by which the general partner administers the partnership and its investments. Each limited partner owns a specified share of the partnership. These partnerships cannot be marketed to the public and are restricted, by regulation, to qualified investors. The underlying investments of these partnerships include many different types of investments, including interest rate swaps, commercial paper, foreign currency, private equity, short interest in common stock, and convertible bonds. The valuation of the partnership interest typically is performed at least quarterly by the general partner through unaudited statements and validated through annual audited financial statements. In certain partnerships, the readily available data on market values allows for monthly valuation of the partnership interest. As such, these partnerships are categorized in Level 3 of the fair value hierarchy.

There has been no significant change in valuation techniques of investments during either year.

A breakdown of total investment return for the years ended June 30, 2015 and 2014 are as follows:

	$ 119,170,594	$ 120,515,396

The College maintains various collections of inexhaustible assets to which at times no value can be determined. Such collections could include contributed works of art, historical treasures, literature, and the like that are held for exhibition and public service. These collections are neither disposed of for financial gain nor encumbered in any means. Accordingly, such collections are not capitalized or recognized for financial statement purposes.

NOTE 4 - LAND, BUILDINGS, AND EQUIPMENT (Continued)

Depreciation expense amounted to $6,160,728 and $6,371,657 for the years ended June 30, 2015 and 2014, respectively.

Construction-in-progress includes approximately $594,237 and $220,234 of obligations not paid as of June 30, 2015 and 2014, respectively. There was no capitalized interest in 2015 or 2014.

NOTE 5 - ACCOUNTING FOR CONDITIONAL ASSET RETIREMENT OBLIGATIONS

Under the provisions of ASC 410-20, *Asset Retirement and Environmental Obligations*, the College is obligated to record a liability for conditional asset retirement obligations. The College performed an analysis of such obligations and determined that asbestos remediation costs represented the College's primary source of such liabilities. The College reviewed all facilities and determined the timing, method, and cost of asbestos remediation using a variety of assumptions and estimates. The analysis included an estimated inflation factor and discount rate, which were used to determine the present value of the obligation. The cumulative cost of asset remediation is amortized over the remaining useful life of the affected asset.

The liability related to conditional asset remediation obligations as of June 30, 2015 and 2014 are included in accrued liabilities in the accompanying statements of financial position as follows:

	2015	2014
Beginning balance	$ 995,232	$ 949,377
Accretion	48,070	45,855
	$ 1,043,302	$ 995,232

NOTE 6 - BORROWING ARRANGEMENTS

Bonds and notes payable as of June 30, 2015 and 2014 consist of the following:

	2015	2014
Refinancing note payable to bank, quarterly variable interest payments, swapped to fixed-rate payments	$ 21,449,907	$ 22,695,325
College Revenue Bonds Series 2009 - capital improvement (Net of unamortized discount of $171,095 in 2015 and $178,273 in 2014)	16,593,905	16,911,727
College Revenue Bonds Series 2006 - capital improvement (Net of unamortized discount of $93,110 in 2015 and $97,634 in 2014)	13,906,890	13,902,366
Note payable - athletic equipment	94,081	130,656
	$ 52,044,783	$ 53,640,074

NOTE 6 - BORROWING ARRANGEMENTS (Continued)

On December 15, 2010, the College obtained a bank loan in the amount of $26,386,313 (the “2010 Refinancing Note”). The proceeds of the 2010 Refinancing Note were used to (i) refund the Pennsylvania Higher Educational Facilities Authority Bonds Series 1998 (the “Refinanced Bonds”) and (ii) pay the cost of issuance of the 2010 Refinancing Note. The College recognized a loss on refinancing related to the write-off of unamortized bond issuance costs of $947,632. The 2010 Refinancing Note carries a variable rate of interest. Amounts outstanding under the 2010 Refinancing Note will bear interest at a rate per annum equal to the sum of 65% of London InterBank Offered Rate (“LIBOR”) in effect on each reset date plus 1.22%. The 2010 Refinancing Note is a limited obligation of the College, as it is payable solely from net revenues. Principal and interest are payable in quarterly installments, which commenced March 1, 2011, with a final payment due on June 1, 2031. The Note agreement provides that the College maintain certain ratios and other covenants.

In addition, the College entered into a Rate Swap Transaction (RST) for the purpose of fixing the interest rate on the 2010 Refinancing Note at a rate of 3.315%. The RST was effective December 15, 2010, and will continue to June 1, 2031. The fair value of the RST as of June 30, 2015, was approximately $1,053,864 with a notional amount of $21,449,907. The fair value of the RST as of June 30, 2014, was approximately $928,099 with a notional amount of $22,695,325.

The Series 2009A and 2009B Bonds were issued through the Crawford County Industrial Development Authority. The Series 2009A Bonds require semiannual interest payments at fixed interest rates originally ranging from 2.375% to 6.00% and have maturity dates from 2010 to 2031. The Series 2009B Bonds require weekly variable interest calculations and monthly payments. The principal portion is payable in installments, which commenced on November 1, 2010, with final payment due November 1, 2039. The Bond agreement provides that the College maintain certain ratios and other covenants. As of both June 30, 2015 and 2014, the College had approximately $836,400 of debt service reserve funds from the 2009 bond proceeds, which is included in investments.

The Series 2006 Bonds were issued through the Pennsylvania Higher Educational Facilities Authority. The Series 2006 Bonds require semiannual interest payments with two interest rates of 4.75% and 4.80%, with two maturity dates of 2031 and 2036, respectively. The principal portion is payable in installments, which will commence on May 1, 2028, with final payment due May 1, 2036. The Bond agreement provides that the College maintain certain ratios and other covenants. As of June 30, 2015 and 2014, the College had approximately $1.3 million of debt service reserve funds from the 2006 bond proceeds, which is included in investments.

In January 2014, Allegheny College entered into three long-term debt agreements with a financial institution for the purchase of athletic equipment totaling $145,527. Interest accrues on the borrowings at an average rate of 3.67%. The combined loan balance outstanding at June 30, 2015 and 2014 was $94,081 and $130,656, respectively.

NOTE 6 - BORROWING ARRANGEMENTS (Continued)

Scheduled payments in each of the next five fiscal years and thereafter are as follows:

	Principal	Interest	Total
2016	1,649,589	2,082,624	3,732,213
2017	1,704,643	2,020,864	3,725,507
2018	1,751,409	1,960,331	3,711,740
2019	1,804,369	1,894,891	3,699,260

Thereafter	43,270,925	16,956,592	60,227,517
	$ 52,044,783	$ 26,745,098	$ 78,789,881

Interest expense was approximately $1,914,000 for 2015 and $1,964,000 for 2014.

NOTE 7 - LINE OF CREDIT

The College currently has available a $5,000,000 revolving line of credit, which is payable on demand. This line of credit is unsecured. Interest is payable monthly on the outstanding principal balance at the best rate option or LIBOR rate, plus 0.65% (0.8359% as of June 30, 2015). This line of credit may be canceled by either the lender or the College upon notification in writing to either party. There were no outstanding borrowings on the line of credit as of June 30, 2015 or 2014.

NOTE 8 - OPERATING LEASES

The College leases certain equipment for use by various instructional, administrative and supporting departments. Minimum future rental commitments under noncancelable leases having an initial or remaining term in excess of one year as of June 30, 2015, are as follows:

Year Ending June 30	Amount
2016	$ 183,811
2017	125,206
2018	22,689
2019	10,238
2020	4,407
	$ 346,351

Operating lease expense for the years ended June 30, 2015 and 2014 was $211,303 and $213,658, respectively.

NOTE 9 - NET ASSETS RELEASED FROM RESTRICTIONS

Net assets released from temporary restrictions during fiscal years 2015 and 2014 are as follows:

	2015	2014
Instructional	$ 2,461,269	$ 1,987,894

NOTE 11 - PELL GRANT AND PENNSYLVANIA HIGHER EDUCATION ASSISTANCE AGENCY PROGRAMS

Activity of the Pell Grant and Pennsylvania Higher Education Assistance Agency programs is not reflected in the College's statements of activities. Students received approximately $2,171,00 and $2,333,00 from the Federal Pell Grant and $1,446,000 and $1,829,000 from the Pennsylvania Higher Education Assistance Agency programs in the years ended June 30, 2015 and 2014, respectively.

NOTE 12 - EMPLOYEE BENEFITS

The College has defined contribution pension plans covering substantially all of its full-time employees. Contributions to these annuity funded plans amounted to approximately $2,187,000 and $2,111,000 for the years ended June 30, 2015 and 2014, respectively.

The College provides medical premium coverage at the option of employees who have completed 10 consecutive years of full-time employment and who have attained the age of 58 or upon retirement until they reach the age of 65. The College and employee each pay their same percentages of the premium monthly during the period after retirement as they did while the employee was working. The liability related to this postretirement benefit was approximately $345,000 and $170,000 as of June 30, 2015 and 2014, respectively, and is included in the accrued liabilities line on the accompanying statements of financial position.

NOTE 13 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The College applies fair value guidance to all assets and liabilities that are being measured and reported on a fair value basis. This guidance establishes a hierarchal disclosure framework that prioritizes and ranks the level of market price observability used in measuring investments at fair value. This guidance requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following categories:

Level 1 - Valuations based on quoted market prices in active markets for identical assets that the organization has the ability to access. Since valuations are based on quoted market prices that are readily available in the active market, valuation of these products does not entail a significant degree of judgment.

Level 2 - Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary from instrument to instrument and is affected by a wide variety of factors, including, for example, the liquidity of markets and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable in the market, the determination of fair value requires more judgment.

NOTE 13 - VALUE OF FINANCIAL INSTRUMENTS (Continued)

The hierarchy has three levels based on the observability of inputs as follows. The following methods and assumptions were used to estimate fair value of each class of financial instruments for which it is practicable to estimate fair value:

- The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities approximate fair value because of the short maturity of these instruments.
- Contributions receivable are reported at the present value of estimated future receipts, which approximates fair value.
- The carrying values of investments, trusts held by others, annuities and remainder interest trusts are based primarily on Level 1 quoted market prices. Where such quoted market prices are not available, Level 2 and Level 3 inputs which include audited financial statements, appraisals, or recent or comparable cost are used as an estimate of fair value.
- The carrying value of split-interest obligations approximates fair value, since the obligations are recorded at the net present value of estimated future payments.
- The carrying value of the Bonds is $30,500,795 as of June 30, 2015, as compared to the estimated fair value of $31,995,292. Fair value of the bonds payable were calculated by discounting scheduled cash flows through the maturity of the bonds and notes using Level 2 inputs and estimated market rates. The carrying value of the Note Payable is $21,449,907 as of June 30, 2015, as compared to the estimated fair value of $26,386,313. Fair value of the Notes was calculated by discounting scheduled cash flows using Level 2 inputs and estimated market rates.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

As of June 30, 2015, the College had entered into various contracts for the construction and renovation of various campus facilities that have remaining commitments of approximately $525,777.

The Guaranteed Access to Educational Program (GATE) is a private subsidized educational loan program designed specifically to meet the educational costs of students attending participating accredited institutions. The GATE loans must be repaid by borrowers over a period that typically extends 13 years after graduation. The College participated in the GATE Loan Program through the 2006-2007 academic year. The total potential commitments in excess of the expected contribution by the College to this program amount to approximately $1,600,000 as of June 30, 2015.

In addition, the College receives significant financial assistance from governmental agencies in the form of grants. The disbursement of funds received under such programs generally requires compliance with terms and conditions specified in grant agreements and is subject to audit by grantor agencies. The grant agreements provide for possible auditing of expenditures by grantor agencies and possible disallowance of certain expenditures.

The College is involved in various legal proceedings, administrative actions, and claims arising in the normal course of business. In the opinion of management, the College’s liability, if any, under pending litigation and administrative actions will not materially affect its financial statements.

NOTE 15 - RELATED PARTIES

The College engages in transactions with businesses whose executives are members of the Board of Trustees.
